

ADVANCEMENTS FOR METAL BUILDINGS

CONGRESS

Ljubljana 22.-23.10.

15

IFBS

European Association for
Panels and Profiles

The light metal construction method is a young and dynamic process. Modern requirements with regard to energy savings, environmental protection and standardization within the European Market require closer cooperation in order to meet today's challenges.

In order to achieve these aims, PPA-Europe, the European Association for Sandwich Panels and Profiles and IFBS, the International Association for Metal Building Envelopes, are working closely together. They complete each other in order to bring expertise on product quality, on adequate installation and on efficient advocacy at European level.

This congress will offer the participants the opportunity to operate in a network across the association borders, with the aim of both information exchange and building up new business partnerships. We have compiled a selection of subjects for you which include both current information about manufacturing and sales of your products as well as prospects for their use. We are pleased to invite all those interested to this congress. Participation does not require membership.

We are looking forward to greeting you in Ljubljana!

programme

Thursday, 22 nd October		Friday, 23 rd October	
10.00 - 13.00	PPA-Europe General Assembly Silver Room		Congress / White Hall
13.00 - 14.00	Buffet	09.00 - 10.45	Static mixers and mixer-heat exchangers for PU foam processes Alain Georg, Fluitec mixing + reaction solutions
			Combining glass and sandwich panels for a novel facade generation Martien Teich, seele
14.00	Opening		Next generation development of fire resistant composite panels Brane Tisu, Trimo
14.15 - 15.30	European policy developments: The Renovate Europe campaign and European building efficiency policies European rules regarding dangerous substances and construction products Oliver Loebel, PU Europe	10.45 - 11.30	Coffee Break
	Challenges for Sustainable Metal Building Envelopes Markus Kuhnhenne, AAINA	11.30 - 13.00	Experiences in engineering and erection of façade constructions of power plants Hagen Urban, Züblin Stahlbau
15.30 - 16.15	Coffee Break		BIM ready - First experiences of a manufacturer of daylight systems for flat roofs, Stefan Slawik, LAMILUX Heinrich Strunz
16.15 - 18.00	The GRISPE project: a European research on widely used profiles - A programme to develop calculation methods for their inclusion in EN 1993-1-3 Anna Palisson, L'Enveloppe Métallique du Bâtiment – Building Metal Envelope		Recognising recyclability credentials for metal building products: main challenges in EU policies and standardisation Christian Leroy, Metals For Buildings
	Round robin test of sandwich panels 2014 – compression test acc. EN 14509,A.2:2013 Jörg Finnberg, IMA Dresden	13.00	End of congress
	Update on large scale fire testing in Europe Diane Daems, Huntsman International	13.00 - 14.00	Buffet
18.00	End		
20.00	Dinner		

Registration fee: 350 €
