CPR Conference 25 June 2012

CE marking:
"Quality construction products for safe works"

Amilcar da Costa
Provide methods and criteria for assessing the performance of the construction products in relation to their essential characteristics.

Refer to an intended use of products covered, when provided for in the relevant Mandates.

Where appropriate and without endangering accuracy, reliability or stability of the results:

- Provide methods less onerous than testing for assessing the performance of the construction products in relation to their essential characteristics.

- Determine the applicable FPC which shall take into account the specific conditions of the manufacturing process of the construction product.
